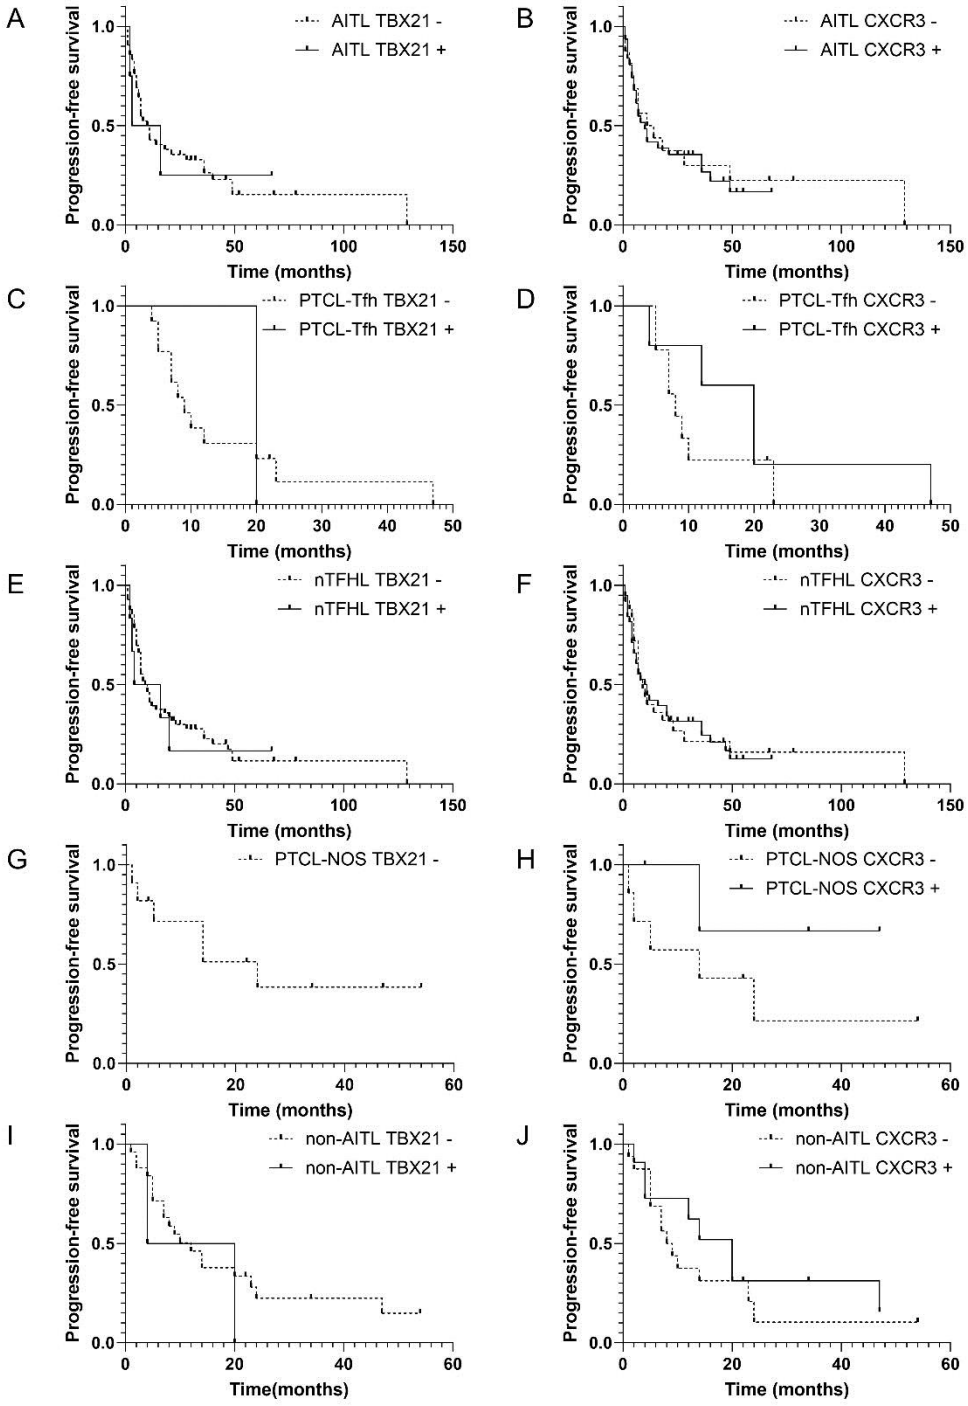
Supplementary Figure S4



Supplementary Fig. S4. Survival analysis of progression-free survival in patients with nodal peripheral T-cell lymphoma according to Th1-like markers. Kaplan-Meier curves display progression-free survival according to TBX21 and CXCR3 in AITL (A, B), PTCL-Tfh (C, D), nTFHL (E, F), PTCL-NOS (G, H), and non-AITL (I, J). AITL, angioimmunoblastic T-cell lymphoma; CXCR3, C-X-C motif chemokine receptor 3; TBX21, T-box transcription factor 21; PTCL-NOS, peripheral T-cell lymphoma, not otherwise specified; PTCL-Tfh, peripheral T-cell lymphoma of follicular helper T-cell phenotype.
